

# Cambridge Science Festival

Northeastern Section of the American Chemical Society

<http://www.nesacs.org>

**The Cambridge Science Festival**, the first of its kind in the United States, is an annual ten series of daylong events based on science, technology, engineering & math (STEM). The Festival makes science accessible, interactive and fun! The schedule of events for April 13-21, 2013 is: <http://cambridgesciencefestival.org/2013Festival/2013ScheduleOfEvents.aspx>

A signature event is **the Science Carnival on Sat. April 13, 2013**. Schools supporting the event include MIT, Harvard, Suffolk University, Northeastern University and many more. The American Chemical Society (ACS), the world's largest scientific society, with 164,000 members, and the Northeastern Section of the ACS will be represented.

Signature Event

12:00pm - 4:00pm

**CAMBRIDGE  
SCIENCE  
FESTIVAL!**

**Science Carnival**  
Cambridge Public Library,  
449 Broadway

**Come one, come all!!** The annual Science Carnival of CSF is kicking off the Festival yet again this year, Bring curious minds of all ages! Check back for updates soon!

**Cost: Free**

The Cambridge Science Festival is organized and run by the MIT Museum. The MIT Museum also has a program called "Science on the Streets". This program uses researchers and innovators to engage audiences with their love of STEM to kids, families and adults attending cultural and community events throughout Massachusetts. Volunteers are needed.

Prepared by

Dr. Jack Driscoll, Chair, Public Relations, Northeastern Section of the ACS.
